Telephone Service Calls

- | | |
|---|--------------------|
| For numbers not listed, call..... | "Information" |
| For assistance in calling, call..... | "Chief Operator" |
| To report a telephone out of order, call..... | "Repair Service" |
| For business transactions with the Company, call..... | "Manager's Office" |

Some Telephone Suggestions

From years of study and experience we have learned that the most satisfactory results in using the telephone are obtained when certain practices are followed. We are offering some of the results of our observations in order that you may get the best results from your telephone.

Obtain the correct telephone number from the directory before making a call. If it is not listed call "Information."

Speak slowly, clearly and directly into the telephone, with your lips close to the mouthpiece.

Answer your calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of your firm when answering, identifies you and saves time.

When your conversation is completed hang up the receiver and, if at a magneto telephone, give one short turn of the crank. This gives the operator the disconnect signal.

Keep the receiver on the hook when the telephone is not in use or your line will be out of order.

OUR POLICY

The policy of the Northwestern Bell Telephone Company, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

LONG DISTANCE SERVICE

TO MAKE A LONG DISTANCE CALL, ask for "Long Distance." Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called, followed by your own telephone number. If you wish to talk to a specified person, also give the name of that person.

A STATION-TO-STATION CALL is one on which you will talk with anyone available at the called telephone. Charges for these calls are based on an initial period of three minutes, except to points for which the rate is 25 cents or less, where the initial period is five minutes. Station-to-Station calls cost less than Person-to-Person calls, described below, because less operator labor and less use of long distance facilities are required to complete them.

A PERSON-TO-PERSON CALL is one on which you specify a designated person, or an extension or department off a private branch exchange switchboard, to be reached at the called place. Charges are based on an initial period of three minutes. If the party cannot be reached directly by telephone the operator, at your request, will arrange to send a messenger to summon the called person to a telephone. This will involve a small additional charge to defray the expense of the messenger. Also, at your request, the operator at no

additional charge will make an appointment with the called party so that you can talk at a specified time.

SPECIAL RATES for both Station-to-Station and Person-to-Person calls are in effect every night from 7 P. M. to 4:30 A. M. and all day Sunday. These rates are lower than corresponding week day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls and 50 cents in general for Person-to-Person calls.

REVERSAL OF CHARGES is permitted on both Person-to-Person and Station-to-Station calls without extra cost except on Station-to-Station calls of 20 cents or less for the initial period, which take a slightly higher rate when sent collect.

A REPORT CHARGE is made on Person-to-Person calls when failure to establish the connection is beyond the control of the Telephone Company. A Report Charge also is made on reversed Station-to-Station calls when the answering party refuses to accept the charge and, as a result, the call is not completed.

TO OBTAIN SPECIFIC RATE INFORMATION on any of the foregoing services, call "Long Distance." To obtain charges on a call at the close of a conversation, notify the Long Distance operator when you place the call.

• • • OWNERSHIP OF DIRECTORIES

Use of an out-of-date directory interferes with good telephone service as each new issue contains many changes in numbers and listings. Simply as a matter of good service, the Telephone Company retains ownership of the directories and they should be surrendered by customers upon delivery of the succeeding issue. Binders or covers, other than those furnished by the Telephone Company, should not be used with the directory.

DIRECTORY ERRORS

Every precaution is taken to prevent errors and omissions in telephone directories, but we cannot guarantee against them.

An allowance may be made for an error or omission in a directory. However, it shall not exceed one-half the charges for service from date of issuance of the directory in which it was made, to date of issuance of the succeeding directory in which the listing is correct.

Such an adjustment shall be contingent upon the order for the listing having been given in writing over the customer's signature. No other liability for errors or omissions in directory listings shall, in any case, attach to the Company.

TELEPHONE ATTACHMENTS

The telephone provided you is an intricate and sensitive instrument, developed through years of experiment and research. It is complete in itself to give the best possible service.

Our experience has been that the attachment of other auxiliary apparatus to telephone instruments generally interferes with service. Therefore, we request you to refrain from attaching any devices, not supplied by the Company, to the telephone instrument or other equipment. For the same reason, we also request that no advertising devices be attached. The Telephone Company reserves the right to remove all such apparatus and devices.

If you have a special problem of telephone service, please call our Business Office and we shall be glad to assist you in meeting it.

REGULATIONS AND TARIFFS

The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

**We Believe in
AMES**

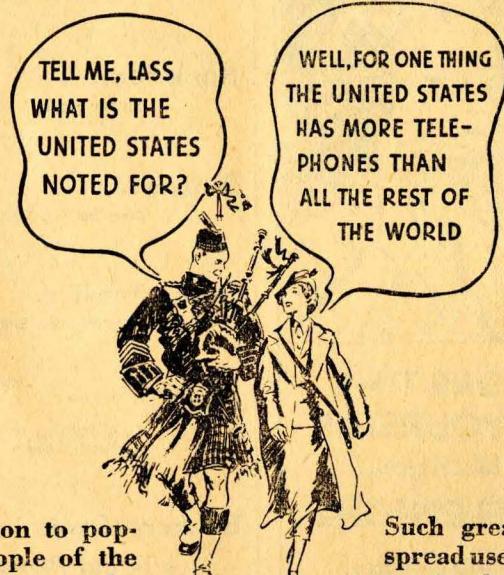

The national government and the state government have fully recognized the value of organized effort. The Ames Junior Chamber of Commerce represents organized effort in building the community, promoting civic projects and making our city a finer place in which to live.

It is your organization. Be a member and have a real active part in building your home, business and community.

We maintain Club Rooms in HOTEL SHELDON-MUNN.

**Ames Junior Chamber of
Commerce**

Phone 1900

In proportion to population, people of the United States use telephone service 16 times as much as the rest of the world—nine times as much as Europeans.

Such great and widespread use of telephone service throughout this country is evidence of its high quality, its great value and its low cost to telephone users.

Do Your Children Know How to Call Help by Telephone?

In case of fire, accident, sudden illness or other emergency, here's what your children should be taught to do in order to get help **QUICKLY**.

Get to the telephone at once.

Call the telephone operator.

TELL the OPERATOR the name of your family, where you live and what the trouble is.

The operator will make every effort to send help quickly. The children do not need to know the telephone number of the person they want.

Lips Close to the Telephone

**..that's the
way you can
be heard best!**

**People can hear you
more clearly over a telephone when your lips
almost touch the mouthpiece.**

**Talking to one side, above or below, or with
lips away, makes it difficult for others to hear you.**

**TELEPHONE DIRECTORY
IOWA STATE COLLEGE**

Private Branch Exchange System

From Ames Telephones Call 2500

Information on Use of College Telephones

Numbers of telephones connected with the college private branch exchange system are listed in this section of the directory.

FIRE CALLS

In case of fire, between 7 a.m. and 10 p.m. dial "0" and report it to the operator. At other times, dial "9" and call the Fire Department.

Use of Dial Telephones

Before making a call, consult the directory to be sure you have the correct number. Numbers of telephones connected with the college telephone system are listed in this section of the directory. Calls to these telephones are made by dialing the complete numbers. Telephones not connected with the college system are listed in the preceding sections of the directory and are reached through operators.

After you have obtained the number of the telephone you wish to call, remove the receiver and almost immediately a steady humming sound, called the dial tone, will be heard. This tone lets you know that the dial equipment is ready to receive your call.

After each call, it is necessary to hang up the receiver and get the dial tone again before making another call.

How to Dial

For calls to telephones listed in this section of the directory, dial each figure of the number you are calling in the order shown in the directory. To dial any figure, place your finger firmly in the opening of the dial through which

the figure is seen. Pull the dial around in a clockwise direction until your finger strikes the stop. Then remove the finger and allow the dial to return without assistance to its normal position.

Take, for example, the dialing of telephone number 763. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "7" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures "6" and "3" may be dialed in a similar manner.

If a mistake is made while dialing, or if your finger slips from the dial before reaching the stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

Service Signals

The "ringing" or "busy" signal usually will be heard within a short time after you complete dialing.

The ringing signal is a "bursting" sound that will be heard at regular intervals which indicates

that the bell of the called telephone is being rung.

The busy signal is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

If you do not hear one of these signals within a reasonable length of time, hang up the receiver and dial the complete number again. If, after a second attempt, you do not hear a signal or receive an answer, dial "0" (operator) and report the condition to her.

Calling from College Telephones

To Other College Telephones—To call another telephone connected with the college telephone system, lift the receiver and upon hearing the dial tone, dial all three figures of the number in the order in which they appear in this section of the directory.

To Outside Telephones—To make a call to a telephone not connected with the college telephone system, lift the receiver from the hook and upon hearing the dial tone, dial the figure "9." Give the number of the telephone you wish to reach to the operator who answers.

Calling College from Outside Telephones

To call a college telephone from telephones not connected with the college telephone system, telephones without dials, call 2500. Give the number of the college telephone you wish to reach to the college operator who will answer and handle your call. Numbers of college telephones are listed in the following pages.

Night Calls

In order that calls from "outside" telephones may be completed to certain college telephones during the hours 10 p.m. to 7 a.m. when a college operator is not on duty, night numbers have been assigned to hospital, residence halls

and certain other telephones. A complete list of the night numbers is shown on the last page of this section of the directory.

To make a call between 10 p.m. and 7 a.m. from a college telephone to a college telephone with a night number, dial "9" and give the night number to the operator who will handle your call. Calls from college telephones to all other telephones should be placed at all hours as previously mentioned.

To call college telephones from "outside" telephones during the period 10 p.m. to 7 a.m., give the operator the night number of the telephone you wish to reach.

Long Distance Calls

To make a long distance call between the hours of 7 a.m. to 10 p.m., dial "0," the college operator who will place and handle all long distance calls during that period. During other hours, dial "9" and ask the operator who answers for "Long Distance."

To place long distance calls from a telephone with a night number during the period from 10 p.m. to 7 a.m., ask the operator who answers for "Long Distance." Additional information on long distance service will be found in the introductory pages in the front of this directory.

Non-Listed Numbers

College telephone numbers added or changes made too late to be included in this directory will be furnished by the college operator. She may be reached from college telephones by dialing "0" and from "outside" telephones by calling 2500.

Directory and Service Changes

All changes in telephone service or directory listings for college telephones should be handled through the Iowa State College Business Office.

IOWA STATE COLLEGE

Private Branch Exchange

TELEPHONE DIRECTORY

From Ames telephones call 2500 and ask for extension wanted.
From College telephones dial the extension number wanted.

NIGHT NUMBERS

To make a call between 10 p.m. and 7 a.m. from a college telephone to a college telephone with a night number, dial "9" and give the night number to the operator who will handle your call.

To call college telephones from "outside" telephones during the period 10 p.m. to 7 a.m., give the operator the night number of the telephone you wish to reach.

Use of college telephones—See first pages this section

Our SERVICE ENGINEERS Will Help You

Get the Most for Your Money

in TELEPHONE SERVICE

We have trained Service Engineers who constantly are making telephone service surveys for business men and helping them to—

Prevent loss of calls.

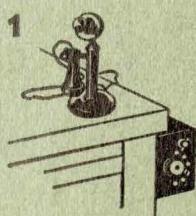

Give best service to customers.

Save time and money through increased efficiency.

If you want to make sure you are getting the most for your money in telephone service, just call our Business Office and ask for a Service Engineer. We shall be glad to make a survey for you without charge or obligation.

NORTHWESTERN BELL TELEPHONE COMPANY

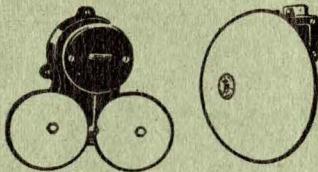

TELEPHONE EQUIPMENT to meet your service needs

**SPECIAL
TELEPHONE
SERVICE
for the
HARD
of
HEARING**

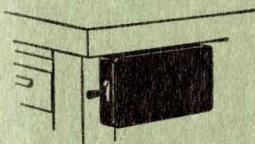

Adjustment of switch increases
the volume of sound.

**2 LOUD RINGING
TELEPHONE GONGS**

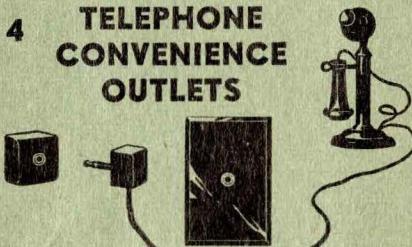

For large or noisy places such
as lumber yards, garages, etc.

**3 PRIVACY SWITCH
FOR YOUR TELEPHONE**

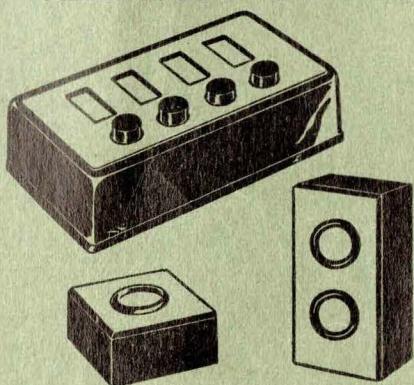

To provide privacy by disconnecting
extension telephones or to
silence extra bells.

**4 TELEPHONE
CONVENIENCE
OUTLETS**

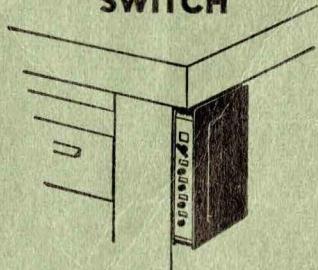

Can be put in like electric outlets—
plug in portable telephones when
and where most convenient.

5 TELEPHONE BUZZERS

For use in signalling some-
one else to talk over
another telephone.

**6 TELEPHONE
CALL-HOLDING, PRIVACY
and
INTERCOMMUNICATING
SWITCH**

You can hold and cut off calls
and intercommunicate on
one telephone line.

We shall be glad to discuss any of these items with you. Just call the
telephone office. **NORTHWESTERN BELL TELEPHONE COMPANY**
